

ShowerGuard SatinDeco glass.

Silky smooth outside.
Squeaky clean inside.

SHOWERGUARD®

FOREVER BEAUTIFUL

Keeping your ShowerGuard glass clean is easy. A soft cloth and most common household cleaners are all you need to keep it looking beautiful. Do not use harsh, abrasive cleaners on either the etched or un-etched side of the glass. And as with all glass, avoid abrasive brushes that could scratch the surface.

ShowerGuard glass is covered by a limited 10-year warranty.

For simple care instructions, a list of approved cleaners and warranty information, visit ShowerGuardGlass.com.

SHOWERGUARD®
FOREVER BEAUTIFUL

ShowerGuard SatinDeco glass from Guardian. Adds elegance. Resists scum.

Shower enclosures made from high-quality, acid-etched glass bring a silky elegance to any luxury bathroom. However, even acid-etched glass won't mask the corrosive effects of the harsh shower environment. And abrasive cleaning products can actually make it look worse.

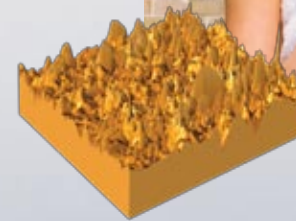

But ShowerGuard SatinDeco glass from Guardian is altogether different. Its patented manufacturing technology seals the un-etched glass surface, stopping corrosion before it starts. With just a minimal amount of cleaning,* ShowerGuard SatinDeco glass will look as elegant as the day it was installed, shower after shower, year after year.

* Visit ShowerGuardGlass.com for cleaning instructions specific to your water type.

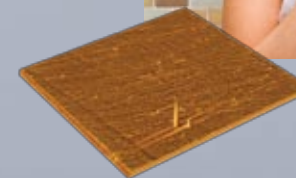

Standard glass corrodes leaving it full of tiny pits and ridges that attract and hold scum.

Magnified standard shower glass showing corrosion after exposure to typical shower conditions.

ShowerGuard SatinDeco glass resists corrosion, so scum has nothing to grab on to.
