Two-Factor Authentication

Beginning in May of 2023, you **must** enable two-factor authentication for additional security. The Coupa supplier portal will now require you to use two-factor authentication to access their data in the CSP, such as:

- Legal entity
- bank details
- Remit to addresses
- Manage accesses and assign permissions to new and existing users.

*you can enable it for login into your account, this is optional

It shows a checkbox for 'Enabled' and a description: 'Using an Authenticator App available from your mobile phone app store'. There's a link 'Change Authentication App'. Enter verification code when prompted and select OK. SMS rates apply.' At the bottom, there are two buttons: 'Show Recovery Codes' and 'Regenerate Recovery Codes'.

Two-Factor Authentication

To enable two-factor authentication, click on account settings under your username, it will take you to **My Account page** then click on **Security & Two-Factor Authentication** link on the **My Account page**.

When you enable two-factor authentication, you can choose from the following options:

- ✓ For Payment Changes (Required for Changing Legal Entity or Remit-To)
- ✓ For both account access (login) and payment changes

Depending on how you want to receive the verification codes, you can select one of the following options, and set your preference as the default:

Two-Factor Authentication via text message

if you want to receive text message (SMS) notifications or verification codes, you **must** enter and validate your phone number under My Account > Notification Preferences.

After you verify your phone number, enter the verification code in the pop-up window.

Once successful validation, you receive the verification codes in text messages

The image shows a screenshot of the Coupa Supplier Portal. At the top, the header includes the Coupa logo and 'supplier portal' text, along with user information 'KATIA' and a notification badge showing '6'. A navigation bar contains links for Home, Profile, Orders, Service/Time Sheets, ASN, Invoices, Catalogs, Business Performance, Sourcing, Add-ons, and Setup.

Two-Factor Authentication via Authenticator App

For the authentication via app, you will need to download an additional app on your phone, through your app store or google play store,

You can choose between available apps; we recommend you these two:

✓ “google authenticator” and “authy”

Once you have the app:

1. Open the app
2. Scan the QR code using the app
3. Enter the 6-digit validation code
4. Click enable.

Two-Factor Authentication via Authenticator App

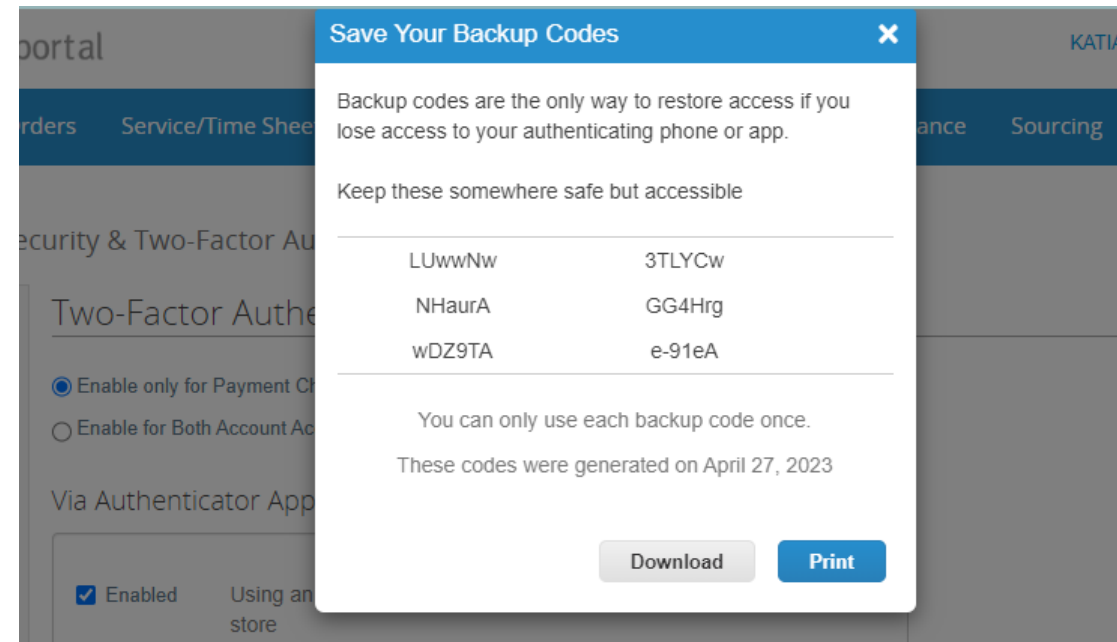

The portal will give you back up codes in case you lost, delete the app, or changed your phone,

Print this backup codes or email them to yourself before you click OK.

Note

You can only use a recovery code once, so refresh your list if you must use a recovery code. Go to Account Settings > Security & Two-Factor Authentication and

click **Regenerate Recovery Codes** to get a new list of codes.

! **IMPORTANT:**

- ! THE USE OF THE CSP IS COMPLETELY **FREE**. YOU DON'T HAVE TO PAY ANYTHING TO REGISTER, HAVE ACCESS TO YOUR POs, INVOICES, etc. ,
- ! Right now, the portal is offering to get your profile verified with an additional cost. This is totally optional. We, Guardian/SRG don't require this verification.
- ! Starting May 2023, two-factor authentication will be **mandatory** for viewing or making changes to the legal entity, remit to address or bank account information on the CSP. This two-factor authentication is completely FREE (for more information visit pages 3-7)
